A Message from the Chief

It is my pleasure to present to you the 2014 Annual Report of the Overland Park Police Department. The year 2014 will be known as a year of transition for the Overland Park Police Department. The retirement of Chief John Douglass after serving for 41 years, the appointment of interim Chief Mark Kessler, and the search for a new chief were the major internal challenges facing the police department. I proudly accepted the role of Police Chief in October, 2014. During this transition, the public continued to be served by the men and women of our agency with pride and professionalism. The fact that the public received the same quality service with little or no perception of the changes taking place internally, is a testament to the quality of our staff.

Mayor Carl Gerlach, City Manager Bill Ebel, and I are committed to providing for the safety and security of our community. I would like to express my thanks to the governing body, department directors, and the community for their continued support of our police department.

In April our community was terrorized by the tragedies at the Jewish Community Center and Village Shalom. Our department was in the global spotlight and performed at a level of excellence that is beyond measure. In the wake of the tragedies we witnessed overwhelming support worldwide for our officers, our community, and the families of the victims.

The various divisions within the police department have all worked together toward the common goal of providing excellent police service. One specific example of teamwork is the Community Oriented Policing and Problem Solving unit (COPPS) working alongside the Patrol Division in the four quadrants of the city. This partnership continued to put an emphasis on problem solving and enforcement, which resulted in a decrease of 12% in violent crime over the previous year.

COPPS and School Resource Officers (SROs) once again blessed families in need through Operation Rudolph, a program that raises funds to help less fortunate children purchase and wrap Christmas presents to give to family members.

SWAT members worked alongside the US Marshal Fugitive Apprehension Task Force in making 28 arrests. The Traffic Safety Unit worked with other Johnson County Agencies and the Kansas Highway Patrol on five DUI check lanes, removing 31 intoxicated drivers off of the streets. Our Criminal Investigations Division worked with other Kansas City Metro agencies, assisting in Metro Squad investigations, as well as detectives working with various task forces, such as the FBI Joint Terrorism Task Force, Kansas City Division Child Exploitation Task Force, DEA, and the Secret Service Task Force. These combined efforts have been immensely successful, leading to arrests and prosecution of numerous criminals.

I am proud to lead such a great organization and welcome the opportunity to serve the Overland Park Community. The men and women of the Overland Park Police Department, along with our community partners, enable us to be one of the top law enforcement agencies in the nation.

Respectfully Submitted,

Chief Francis R. Donchez, Jr.

Sample Police Report

- The text below is an example of a police report. Notice the following points about it:
- It is written in clear, simple English.
- Dates, times and other details are recorded as precisely as possible.
- The "regular" level of language is used. For example, there are no short forms such as "didn't" and no colloquial words such as "hired". Similarly, the formal word "purchased" is used instead of "bought".
- The report is objective. The writer focuses on the events and the evidence, not on his own thoughts or feelings.

Case Number: VT 05/04/2002
 Incident: Vehicle Theft
 Reporting Officer: Constable Reed Arvola
 Date of Report: 06 February 2003

At about 1040hrs on 5 April 2001, I met with Ms. Vanessa Kahn at 61 Southside Drive regarding a vehicle theft. Ms. Kahn said she parked her car by a parking meter outside Southside Shopping Centre at about 0945 hours and went into a nearby shop to return a faulty torch she had purchased the previous day. She said that when she returned to the hours centre at about 1000 hours, she discovered her car was missing.

Ms. Kahn described her car as metallic silver, 2000, Audi Cabriolet A4 1.8 T 5-door, with black fabric roof. Registered in the UK, the car registration number is 01L 662-P. She estimated the value of the car at £29,500 and said there were no distinguishing marks or items.

Ms. Kahn told me she locked the car, but she does not have the keys. She now believes she may have left the keys in the boot lock after removing the faulty torch from the boot. Ms. Kahn said she had not given permission for anyone to take her car, and she is up to date with her loan repayments.

I conducted a survey of the crime scene but found no items of evidence. I saw no broken glass in the area, and there were no items to retrieve or photograph.

I obtained a sworn statement from Ms. Kahn and provided her with the case number and information (called 99/07 ("What to do when your car is stolen")), entered the vehicle into the station database as a stolen vehicle. I also searched the area but was unable to find the vehicle.

STANDARD REPORT FORM
CONSTRUCTION PRICE SURVEYS

Country:
Survey year:

Note: Please enter information in this survey report that is complementary to your PPP Inventory and describes specific aspects related to this survey, especially if they are different from what is in the Inventory. If the PPP Inventory describes accurately the procedures for a certain section, it suffices to make a reference.

1. SURVEY

1.1 Timing, organisation and resources used

Describe when and how the survey was carried out and how many (human or other) resources were spent. Describe also the preparations for the survey (translation, etc.)

1.2 Data sources

Describe the sources of information for the prices reported. List all direct costs (materials, labour etc.) that are included in the unit prices. Describe which general and preliminary expenses are taken into account in the unit prices and how architects' and engineers' fees are estimated.

1.3 Problems encountered and lessons learned

Describe any problems encountered during the survey, solutions found and lessons learned for the next survey (for individual basic headings, if needed).

2. INTRA-COUNTRY VALIDATION (BEFORE SUBMISSION)

2.1 Timing, organisation and resources used

Describe when and how the intra-country validation was carried out (before the submission of data to Eurostat) and how many (human or other) resources were spent. Provide the date of the first delivery of the data file through eDAMIS and any potential problems related to the transmission.

2.2 Checks performed

Describe the validation checks performed before submitting the data file to Eurostat via eDAMIS.

2.3 Problems encountered and lessons learned

Describe any problems encountered during the intra-country validation, solutions found and lessons learned for the next survey (for individual basic headings, if needed).

Soils Reports/Investigation – When Required

The purpose of this memorandum is to clarify when a soils report/investigation is required and provide a level of understanding and consistency for the public and staff.

Foundation and Soils Investigation Reports Are Required For:

All New Buildings and Structures located in Seismic Design Category C, D, E, or F require foundation and soils investigation reports per Sections 1802.2.6 and 1802.2.7 of the 2007 California Building Code (CBC) as adopted by Stanislaus County. The scope of the soil investigation including the number and types of borings or soundings, the equipment used to drill and sample, the on-site testing equipment and the laboratory testing program shall be determined by a registered design professional per Section 1802.5 of the CBC. The foundation/soil investigation report shall be prepared, stamped, and signed by a registered design professional.

Note: The majority of Stanislaus County is determined to be in Site Class "D" with two exceptions. The two exceptions are the extreme eastern and western portions of the county lying in the vicinity of Patterson and continuing to the west county line.

Exceptions: Foundation and Soils Investigation Reports May Not Be Required:

Foundation and soils investigation reports for Site Class "D" may not be required when the Minimum Design Requirements given are incorporated into the drawings if:

- a) Exception of section 1802.2 of CBC is applicable.
- b) A second story addition to an existing single-family dwelling does not exceed the existing dwelling exterior wall lines. (Additional structural analysis may be required for the existing structure).
- c) A new single story addition to a single-family dwelling where the additional gross floor area is 500 sq. ft. or less and the new foundation match's the existing.
- d) A single-family dwelling, which is not part of an approved subdivision with a final map that is, designed per Chapter 23 Section 2308 Conventional Light-Frame Construction.
- e) The accessory structure to an existing single-family dwelling is an attached patio covers, carports, ground mounted photovoltaic systems or detached structures not exceeding 120 sq. ft.
- f) The detached garage U occupancy is designed per Chapter 23 Section 2308 Conventional Light-Frame Construction.
